Ericsson Garage — an arena for collaborations

- Innovation
- Look into new areas
- Incubator program for start-ups
- Simplify interaction and improve on external facing activities
- Lectures, seminars, hackathon
- Student and research projects

Garage thoughts on innovation

- Provide good infrastructure and BIG building blocks
  - 5G networks, Cloud, ML/AI testbeds, robot vehicles
- Competence and networking
  - Guide on what you know, get help where you lack knowledge
- Inspire by showing demos and working examples
- Create “You can do it”- feeling

Why building

the world's smallest 5G Networks

is a big thing

Today's focus, 2 x 5G networks
